## Press Release

# Webasto Celebrates 125 Years of Innovation at IBEX 2026 with Advanced Marine Comfort Solutions

**FOR IMMEDIATE RELEASE**

Fenton, Mich. – Webasto, a global leader in thermal management and roof solutions, will showcase its latest marine comfort technologies at the International BoatBuilders' Exhibition & Conference (IBEX) 2026 in October, North America's premier trade event for marine industry professionals.

As Webasto celebrates **125 years of innovation and engineering excellence**, the company continues to build on a legacy of delivering solutions that enhance comfort, convenience and reliability for customers around the globe. This milestone reflects more than a century of customer-focused innovation and technological advancement, including **over 20 years of dedication to the marine industry**, where Webasto has provided boat builders and owners with trusted climate control and roof solutions designed to deliver comfort, reliability and peace of mind on the water. From maintaining ideal onboard conditions to enhancing the overall boating experience with premium roof systems, Webasto products help customers make the most of their time on the water, regardless of destination or weather conditions.

At IBEX 2026, Webasto will place a spotlight on its newest self-contained air conditioning solutions, the SX-Series and FCF Evo. Developed to meet the evolving needs of today's boat builders and owners, these systems deliver reliable performance, efficient operation and installation flexibility while providing the comfort boaters expect in a wide variety of onboard environments.

In addition to its latest self-contained units, Webasto will showcase its comprehensive marine HVAC portfolio, including the VX-Series and V-PRO Series chiller systems, the A-Series air handler, and the Air Top Pro 25 air heater, demonstrating the company's ability to support vessels ranging from small recreational boats to larger custom applications.

Webasto will also feature its innovative SoLite sunroof, a premium roof solution designed to increase natural light, ventilation and open-air enjoyment onboard. Complementing the sunroof display will be the Telescopic Shade 2500, highlighting how Webasto helps manufacturers create comfortable and inviting outdoor living spaces while enhancing vessel aesthetics and passenger comfort.

Supporting these products is Webasto's extensive network of dealers and distribution partners, which provides customers with localized expertise, technical support, service and parts availability while leveraging the resources of a global organization. This regional and worldwide support structure ensures marine customers can rely on Webasto solutions throughout the life of their vessels, wherever their boating adventures may take them. The company's participation in both IBEX and METSTRADE further reflects its commitment to serving marine customers on a global scale while maintaining close connections to regional markets.

"IBEX provides an ideal opportunity to connect with customers, boat builders and industry partners while demonstrating the innovations that continue to enhance life on the water," said Kristie Carino, Head of Sales-Marine division. "As we celebrate 125 years of innovation and more than two decades of dedication to the marine market, we remain committed to delivering the comfort, quality and reliability our customers depend on."

Attendees are invited to visit the Webasto booth 3-1713 at IBEX to see and hear about the company's latest marine comfort and roof solutions while meeting with Webasto's team of marine experts. You can also learn more about Webasto and its offerings by visiting their exhibitor profile on the IBEX website.
